Subcommittee on Rules & Punishments
Charging Document

The Accused FURYK, James Michael
Date 09-13-2013 Evidence File No. FURYK001-2

CHARGES: A proceeding adversary wherein the alleged miscreant did on and in September 13, 2013 violate Rule 101.1 by failing to complete the seventy-one strokes or shots required and instead did submit a record of his/her numerical score less than greater than seventy-one strokes/shots, that reported total being 59

PLEA of the Accused: Accused FURYK's representatives enter for accused the plea of mental, i.e., that the accused is a nutter.

Rules Subcommittee Chairman's Notes: Mr. Furyk displayed a scorecard as he ran past the welcome sign on his way to his car in the clubhouse parking lot. The enhanced image above reveals his calculation of his round. They do not match the official scorekeeper's totals. In addition, the "Marker's Signature" at left, "Sonny Liston," is a forgery. Mr. Liston, the former World Heavyweight Champion Boxer, passed away in 1970. He could not, therefore, have legitimately attested to Mr. Furyk's score in September 2013, although Mr. Furyk insists he did.

As part of our continued coverage of Jim Furyk's 2nd round 59 at the BMW Championship we have published two previous articles here and here.

Last Friday night, the R&W Sub committee determined that Mr. Furyk had indeed violated the *Rules of Golf* Rule 101.1 through his failure to complete the 71 strokes required under the rule. The subcommittee, however, declined to punish Mr. Furyk by disqualifying him from further play at the BMW Championship, ruling , under the Henry Frederick Stuart Exculpatory Rule, established by Royal Decree of King James I and VI on November 7, 1612:

> "An alleged violation of Rule 101.1 shall be negated entirely should the violator be found by a competent gowf rules committee that the violator was, at the time of his violation, a true and certain nutter, attested by confident priests and magicians."

This morning, a FEDEX Cup Rules & Punishments Subcommittee insider who herself was part of the investigative team tasked with determining whether Mr. Furyk violated Rule 101.1 provided the personal notes of the subcommittee Chairman. Maintaining the Chairman's anonymity , she could only describe the source of the notes below as a "cigar smoking bald man

who stands over six-foot-seven inches tall, chronically flatulent and a lousy tipper."

Here are the Chairman's notes:
