it's just the tail end of this news story. people don't really care. it's just the last bit of ratings/site hits the media can wring from it.

i mean, who wants to be all chummy with congress. isn't the whole thing to be an "outsider" and so what if he's rubbing the GOP the wrong way. it's the Dem's overwhelming urge to guzzle the c0ck of the GOP that nothing good ever really gets done.

All the best Dems have been sex maniacs. JFK, Clinton, etc. i mean who gets excited over harry reid or Polosi. they look so lame.

Wiener is in shape. horny, slut... who stands up for what he wants.

i don't care that he lied to the media. fuck the media. i don't even care that he lied to me. people lie to me all the time.

but what i do care about... is that there's someone in congress who dosen't give a shit about making friends with GOP morons when it comes to important issues.
